Respected Sir,

I, the undersigned beg to state my grievances to
your kind consideration and favourable orders --

I received the favour of your reply to my letter
in No A6 P R 61/42 dated 25th September 1942 wherein it is
stated that you have provided a clear open space of five feet
space between the two sites and to have the entrance of my
house to the East etc

In this connection it may not be out of place if I
mention that you have clearly stated in your endorsement No
A6 Pet 5783/40-41 dated 2nd August 1941 that the Municipal
land prayed for by me in front of my house has been reserved
as an open space, as such it cannot be granted I cannot but
understand that how the Municipality granted the land so re-
served free of cost to the Nudhana Abivirathi Sangam without
considering my grievances and thus causing me much trouble
It is but natural that I have come across that the Municipal
authorities insist the public to reserve as much open space
as possible, but in this case they have failed to keep up
the quotation of this endorsement No A6 Pet 5783/40-41 dated
2nd August 1941 the clear open space of five feet so kindly
reserved between the two sites will not in any way redress my
grievances The said open space of five feet is neither a con-
servancy nor a road, in one word that it forms the smallest

conservancy lane in the beautiful City of Bangalore the Municipality could have thought of selling the said land as it is situated in front of my house, thus it would have fetched an income to the Municipality and saved me from further trouble I am not in any way feeling grudge or envy in respect of Udana Abivardhini Sangam

Finally I beg to place before you, once again my heart felt grievances which needs your favourable consideration

(1) I have been having my main entrance on the south for the last fourteen years

(2) My house is situated at the Southern most extremity of the buildings in the line with the main entrance and compound on the South

(3) There is hardly five feet drain margin in the eastern side of my building which is neither a lane nor a road, whereas the other houses have got a much larger space than that of mine

(4) If I have my entrance on the East of my house, there will be every likelihood of danger to the lives of my children on account of the situation of the main drain especially during the rainy season, also my house will be flooded with sewage water as I have been noticing the rush of flood during the rainy season

(5) If any building springs up in front of my building, it will get congested than what it would have been and also it will block up my main entrance as well as the ventilation and free passage of fresh air.

(6) My house is the only building that has its main entrance towards the south from the last fourteen years

(7) The clear open space of five feet so kindly provided between the two sites will be mainly utilised by the drunkards as a protection

In view of the above facts, I request you once again
